

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class detail_is_compatible_array_type_impl["detail::is_compatible_array_type_impl< BasicJsonType, CompatibleArrayType, typename >"]
    detail_is_compatible_array_type_impl --|> std_false_type
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded class box for `detail::is_compatible_array_type_impl< BasicJsonType, CompatibleArrayType, typename >`. A blue arrow with an open triangular head points from this box to a white class box above it labeled `std::false_type`. The `std::false_type` box is divided into three horizontal sections, with the label in the top section and two empty sections below.

detail::is_compatible
_array_type_impl< BasicJson
Type, CompatibleArrayType,
typename >
