

std::false\_type

```
graph BT; A["detail::is_compatible_type_impl< BasicJsonType, CompatibleType, typename >"] --> B["std::false_type"]
```

The diagram illustrates an inheritance relationship. At the bottom is a gray box representing the base class `detail::is_compatible_type_impl< BasicJsonType, CompatibleType, typename >`. A blue arrow points upwards from this box to a white box at the top representing the derived class `std::false_type`. The white box has three horizontal sections, with the top section containing the class name.

detail::is\_compatible  
\_type\_impl< BasicJsonType,  
CompatibleType, typename >
