

detail::iterator_types< T >

The diagram illustrates the relationship between two C++ iterator traits. A light gray box at the top represents `detail::iterator_types< T >`. A darker gray box at the bottom represents `detail::iterator_traits< T, enable_if_t< !std::is_pointer< T >::value > >`. A blue arrow points from the bottom box to the top box, indicating that the bottom box inherits from the top box.
