

std::false\_type

The diagram illustrates an inheritance relationship. At the bottom is a gray box representing the base class 'detail::is\_complete\_type< T, typename >'. It has three horizontal sections, with the top one containing the text. A blue arrow points upwards from the top section of this box to the bottom section of a white box above it. The white box represents the derived class 'std::false\_type' and also has three horizontal sections, with the top one containing its text.

detail::is\_complete  
\_type< T, typename >
