

std::true\_type

```
graph BT; A["detail::is_constructible<...>"] --> B["std::true_type"]
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `std::true_type`. A blue arrow points upwards from a darker gray box below to the bottom of the `std::true_type` box, indicating that the box below inherits from `std::true_type`.

```
detail::is_constructible  
_array_type_impl< BasicJsonType,  
ConstructibleArrayType, enable  
_if_t< std::is_same< ConstructibleArrayType,  
typename BasicJsonType::value_type >::value > >
```
